- (h) creating further dimension annotation data correlated to the further coordinate position data;
- (i) displaying a further dimension annotation correlated to the further dimension annotation data
- (j) cross-associating the at least one further target object with the further dimension annotation, wherein as a result of such cross-association:
 - (i) a change in the further coordinate position data will effect a correlated change in the further dimension annotation data; and
 - (ii) a change in the further dimension annotation data will effect a correlated change in the further coordinate position data. "

The above amendments correspond to the Examiner's Amendment attached to the Notice of Allowability dated May 25, 2005.

As the error arose during the printing of the Patent by the Office, no fee is payable.

If you have any questions, please feel free to contact the undersigned at (416) 957-1606.

Yours truly,
